

Hello

I don't know how to read or write but I know what hard work is and I work hard because it's all I know. My hands are not soft, they are rough from all the work I do to support my family here and in my country of Guatemala. I may not be refined or educated but I am decent and strive for a better future. I don't have any luxuries, but my heart and soul are in peace with God because I help those who need help. I consider myself to be a warrior of life because even though nothing is given to me, many things are taken from me; and just because I'm an undocumented immigrant people feel I'm worth less than they are.

If I were to be deported, the dreams of my children would shatter because I'm the only one that provides for them. My wife is sick and can't work but she cares for our children. We have a very happy and blessed family and I pray to God that none of us ever have to deal with being deported.

There's only 1 God and we all have to go before Him on Judgment Day. I know I'm doing my part by helping others and I hope you do your part by helping us. PLEASE SUPPORT HB 7039.

Thank you,

Francisco Espinoza
